ASPLEY HYPERMARKET

PROJECT:	ASPLEY HYPERMARKET
LOCATION:	ASPLEY, QLD
ARCHITECT:	THOMSONADSETT
BUILDER:	MAINBRACE
COLOUR:	AMERICAN PINE, ZINC CHARCOAL, ZINC LIGHT
PRODUCT:	VITRABOND FR AND VITRACORE G2, 2150M2

The \$50 million upgrade to Aspley Hypermarket in one of Brisbane's popular northern suburbs involved a significant refurbishment to include stylish new interiors as well as an upgrade to the façade and entry statements.

ThomsonAdsett selected the woodgrain finish "American Pine" in a unique pattern, achieving the look of real timber with the benefit of low-maintenance and no requirement for additional coating. The popular "Zinc Light" and "Zinc Charcoal" finishes were employed to provide an architectural contrast to the woodgrain and as a feature 'picture frame' surrounding the Kaynemaile façade screen.

Popular zinc finishes provide an architectural contrast to woodgrain on Aspley Hypermarket
