

VITRABOND™ CODEMARK CERTIFIED!

Vitrabond™ is Codemark certified; ensuring industry leading performance that meets the requirements of the BCA.

Codemark is a building product certification scheme supporting the use of new and innovative materials. The scheme provides confidence and certainty to the regulatory authorities and the market through the issue of a certificate of conformity, a nationally and internationally accepted standard of compliance. The advantage of Codemark to Architects, Designers, Installers and authorities is that it is a performance based approach, guaranteeing all products are assessed on an individual basis. This means that products such as VITRABOND™ ACP are certified based on individual merit, not according to any 'equivalent' or generic product description.

Enquire for more information on how Codemark can help you achieve your needs on 1800 007 175 or at helpdesk.aus@fv.com.au.
