vitrabond FR®

ALUMINIUM COMPOSITE PANEL / MANUFACTURED BY FAIRVIEW

CHERMSIDE NORTH REGIONAL BUSINESS CENTRE AND LIBRARY

PROJECT: CHERMSIDE
LOCATION: CHERMSIDE, QLD
BUILDER: TOMKINS COMMERCIAL
COLOURS: SPRING GREEN 1540, COOL GREEN 0151, GREEN 3595, SILVER ICE METALLIC 9701, ELEGANT TEAK 8355, RIDDLE GREY 1255
PRODUCT: VITRABOND FR AND VITRACORE G2 - 1740M²

Brisbane City Council's Chermiside Business Centre and Library has been upgraded to a Greenstar-rated commercial and council headquarters, providing an exceptional facility for the northside community.

Tomkins Commercial chose to use Vitrabond FR and Vitracore G2 composite panelling for the project's cladding and soffit linings. According to Tomkins Project Manager Howard Sharp, 'Further to extensive research by Tomkins into the selection of suitable composite panelling in light of recent fire compliance issues, the Vitracore G2 was an easy choice given it is Codemark approved and successfully tested under AS1530.1.'

"Of particular attraction [to Tomkins] was the colour finish consistency between the two products. This enabled the non-combustible G2 panel to be laid up to the standard fire rated FR panel."

Howard Sharp, Project Manager, Tomkins Commercial
