NEST AT THE HILL

PROJECT: NEST AT THE HILL
LOCATION: 642 – 654 DONCASTER ROAD,
DONCASTER, VIC
ARCHITECT: K2LD ARCHITECTS
BUILDER: CREMA CONSTRUCTIONS
INSTALLER: COLLMILL GROUP
PRODUCT: 1000M² VITRACADE AND
300M² OF VITRACORE G2
COLOUR: SALMON

The stunning design of the Nest at the Hill development, which consists of over 250 living spaces, saw the Collmill Group install both Vitracade (1000m²) and Vitracore G2 (300m²) on the exterior, providing a touch of natural glamour that will last for decades.

Developed by K2LD Architects in conjunction with Crema Constructions, our terracotta tile system, Vitracade in Salmon, flows from top-to-bottom creating a run of natural clay tiles against the shimmering glass façade. This stunning product also offers additional warmth and acts as a sound barrier to external noise.

*Vitracade is made of only natural raw materials making it UV and weather resistant.
The tile colours will not fade-out in the sun, even after 50 years the façade will look as new.*
